WELCOME

You're already doing something remarkable.

If you're reading this, you're the kind of parent who is actively choosing what's best for your child's education — and that matters.

Maybe you've been homeschooling, and you love the values and flexibility — but you're looking for more structure, more support, or a little relief from carrying the full teaching load yourself. Maybe public school hasn't felt like the right fit. Or maybe you've looked at private school and the cost felt out of reach before you even started.

American Heritage Worldwide was built for exactly this moment. Inside this overview, you'll find what we offer, how it works, and how state scholarship funding can make this available to your family for little or nothing out of pocket.

Our Story

American Heritage School was founded in 1970, and for more than 55 years, we've partnered with parents who believe education should develop both the mind and the heart. American Heritage Worldwide is our online campus — the same legacy of scholarship and faith, delivered wherever your family is.

What makes us different from most online programs is simple: **real teachers, real structure, and a curriculum where faith and academic rigor aren't in tension — they make each other stronger.**

OUR VISION

To be an effective educational resource for parents worldwide in assisting children and families to realize their divine potential.

HOW IT WORKS

Three Pillars, Built to Work Together

Most online programs do one thing well — strong curriculum but a weak platform, or good technology but generic content. Real community is rare. We intentionally built all three to work together as one complete experience.

Original Curriculum

Built in-house by experienced educators. Academically strong, with faith and character woven into every lesson — not as an add-on, but at the core.

Proprietary Platform

One place for lessons, assignments, grading, and parent visibility. Designed for how families actually live — so you always know what's next.

Real Community

Real teachers who know your child's name. Peers who share your family's values. Virtual meet-ups, local events, and an annual retreat.

“The rich, gospel-centered education with strong academics gives me peace of mind for my children.

— Aubrey P., Military Mom

What Your Child Will Learn

Our curriculum covers everything your child needs — with principles of the restored gospel of Jesus Christ woven throughout, not as a separate class but as part of how we teach everything.

CORE ACADEMICS

Math — mastery-based, Virginia standards
 Language Arts — phonics, reading, writing, grammar
Friday assessments to gauge mastery

INTEGRATED STUDIES

Science, History, Geography, Humanities
 Literature & Life Skills
Rotating 2-week units keep students engaged

School ... Your Way

Two ways to plug in, depending on what your family needs — same mission, same heart, same teachers.
